

About SCNS . . .

Southwest Community Nursery School (SCNS) is a parent participation nursery school offering one, two, three, and four day programs for children 2 to 6 years of age. We are located at 327 "A" Street, and have an adult-to-child ratio of one adult for every 4 children. The children are always well supervised by a loving parent, director or teacher.

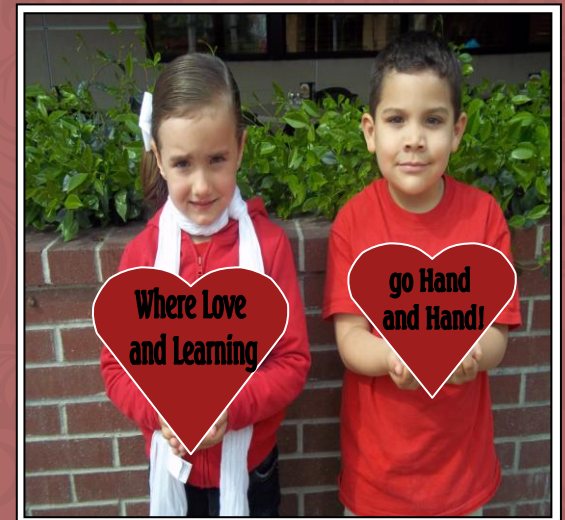

Being toilet trained is not a requirement for enrollment. We are leaving that important skill achievable when parents and their children are ready to do so.

What else should I know?

SCNS is a wonderful unique experience for children and parents. With varied learning activities “disguised” as play, our children love the fun way in which they learn. Since parents, in essence, “run” the school, suggestions for activities, field trips, visitors, rules or regulations are, when appropriate, considered and incorporated. SCNS is what WE make of it – a fun, caring, learning environment for child and parent!

For the School – We pledge:

- *To provide the best pre-school experience at the lowest possible cost.
- *To utilize the diverse interests and skills of all the parents.
- *To accept, without discrimination, families seeking membership who are willing to participate and assume responsibility of membership.
- *To participate wholeheartedly in membership discussions, presenting our own thoughts openly, and working toward consensus decisions.
- *To maintain the highest possible standards for our nursery school, and by sharing our ideas, work to help raise the standards of all of them.

Miss Denise

Where Love and Learning go Hand and Hand!

What will your child do?

Attending SNCS will allow your child to explore many new and exciting things. Your child will “learn through play” and will develop skills necessary for later academic achievement while having fun. Each day includes two art projects, music time, story time, a snack and many choices for play and learning activities.

What does parent participation involve?

Under the direction of a paid professional director and teacher, parents work at the school with their children. A parent will be scheduled to work based on the number of days per week that the child attends. (For example, one-day / week enrollment means you work one day per month, a two-day / week enrollment means you work two days per month, etc.) To keep tuition affordable, we have various fundraisers.
